- TypeScript
- React.js
- Nextjs
- Node.js
- Express
- MongoDB
- GIT
- Github

## Personal Information

City **Mumbai**

Country **India**

## Hobbies

- Web Development
- Cricket
- Online Game

## Languages

- English

## Education

B.Sc, 2026

Mumbai  
University

## Projects

3 Weeks

### Product Management App

Built a Product Management App using React.js for the frontend and Appwrite for backend services, including database, authentication, and file storage.

Designed a responsive and modern UI with Tailwind CSS, ensuring smooth and intuitive user experiences across devices.

Implemented authentication features, allowing users to securely log in and manage products and customers.

2 Weeks

### Todo App

TODO APP built using the MERN stack, offering features like task management with reminders, WhatsApp notifications , list organization , grouping tasks and robust authentication to secure user data.
